Languages: Amharic(native) and English(proficient)

EXPERIENCE

Software Developer
AAiT   📅 2023 - Present   📍 Addis Ababa

School of informarion and technology engineering
- Developed and maintained a group software applications using Python, Django, React and REST APIs
- Debugged and patched existing code to improve functionality, resulting in a more stable and efficient software product.
- Played a key role in shaping the creative aspects of projects, ensuring the successful delivery of products that align with user requirements and preferences.

Website Development
AAiT   📅 2022 - Present   📍 Addis Ababa

Scool of information and technology engineering
- Experienced in a multitude of website development projects, specializing primarily in front-end development utilizing various frameworks such as React. Additionally, proficient in full-stack development, with a comprehensive understanding of both frontend and backend technologies.
- Worked on an Agile team, learning about development methodologies and teamwork
- Assisted in the design and implementation of REST APIs for the projects given

Mobile application Development, chatbot and NLP
Personal Project   📅 2023 - Present   📍 Addis Ababa
Experience from personal projects.
- Gained significant expertise through active involvement in mobile app project and AI, resulting in the enhancement of skills and knowledge. Demonstrated proficiency in Flutter, API integration and Flask. Possess a strong passion for creating innovative solutions and keeping up with industry-leading practices.

SKILLS

Python   NLP

Agile/waterfall development   REST API

Dart:flutter   Bootstrap   Flask

NodeJS   MongoDB   JavaScript

STRENGTHS

∞ **Fast Learner**
Quickly learn and adapt to new technologies and programming languages, allowing for efficient delivery of high-quality software products.

💡 **Attention to Detail**
Thoroughly review code and documentation, ensuring quality software products with minimal or no errors.

⚙ **Collaborative**
I excel in teamwork and thrive when collaborating with others, enabling us to achieve goals and meet deadlines.

🧠 **Problem Solving**
I tackle complex challenges head-on, employing analytical thinking to find solutions and execute them efficiently.
